Ritzville High School for the past years has had the fortunate experiences of being under the leadership of one of the most capable and progressive minded women in the Educational Field today.

To MISS McCLELLAN, who has given so many hours to the youth of Ritzville, we, the staff, dedicate our 1953 KERNEL.

Foreword

This is the formal presentation of the 1953 KERNEL to you — students and faculty of RHS. Within the memorable pages of this book may I share with you your joys and laughter, your disappointments and accomplishments which each page contributes. Words of Athletics; of an outstanding FFA and FHA programs; and other clubs and activities. Pictures, too, are here. Pictures of seniors as they approach the final step of graduation; freshmen as they begin life anew in high school; organizations which bind everyone closer together. It is up to you to remember the rest.

May this be the formal presentation of the 1953 KERNEL to you. I hope it meets with your favorable approval now and will serve always as a true guide for your memories of high school life.

FACULTY

In the Sermon on the Mount is the story of two men who built houses, one with foundations on sand and the other upon solid rock. "And the rain descended and the floods came, and the winds blew and beat upon these houses." The one laid on sand soon fell but the one built upon rock withstood the storm.

So will the building of your life weather storms if you fly the flags of Character, Loyalty, Imagination, and Industry. These, plus worthwhile ideals will give you a sure and firm foundation. "Ideals are like stars; you will not succeed in touching them with your hands, but like the seafaring men on the desert of waters, you choose them as your guides, and, following them you reach your destiny."

E. F. Sayre

Board of Education

Looking over the new-proposed gymnasium are from left to right: Frank Sayre, Jack Richmond, Maynard Galbreath, George Freese, Herbert Moeller, and Harry Schwisow.

Your future is strictly up to you. As a citizen of free America, you will find no dictator to tell you what you must do. Your opportunities will be limited only by your vision of what your future may become, your abilities, and how you use them, your character and your determination.

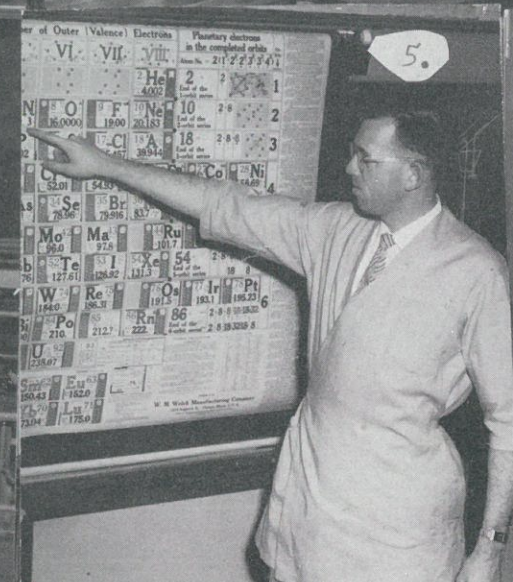

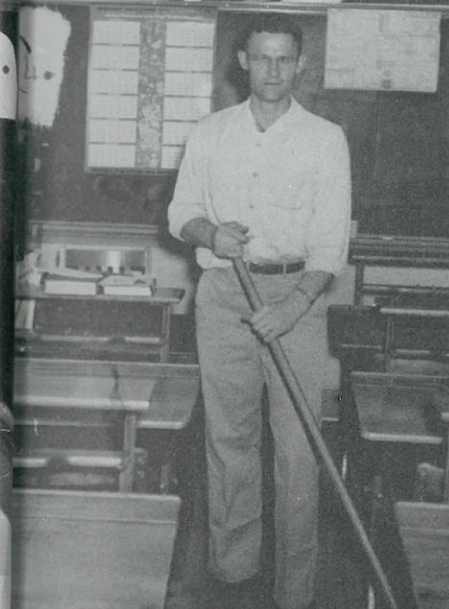

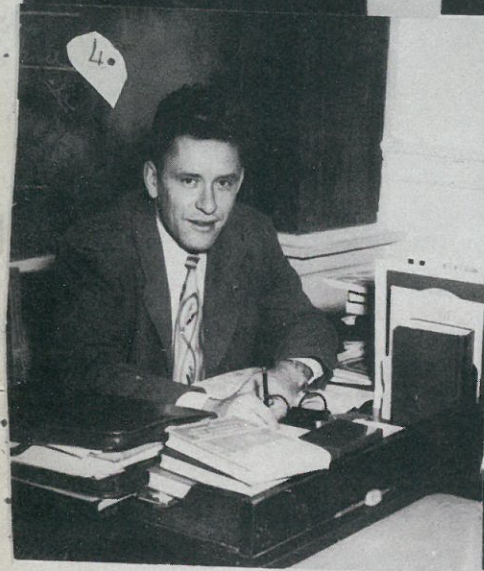

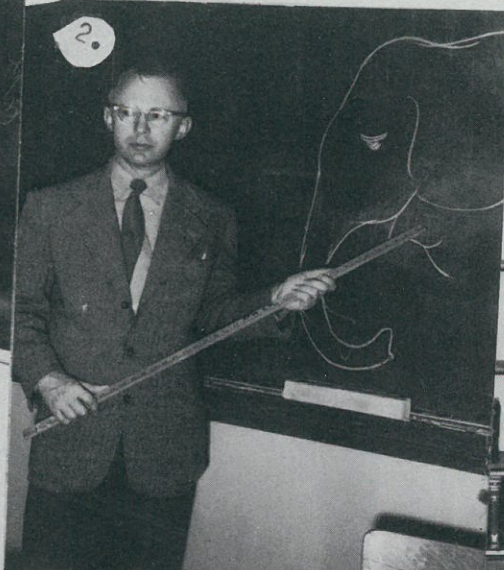

If you want to get the most from your life, you will have to organize your thinking. You will need to use foresight in acquiring those skills which will be of most value to you later. Your school is in a position to help you. The challenge to you is to make the most of the opportunities provided.
