DEDICATION

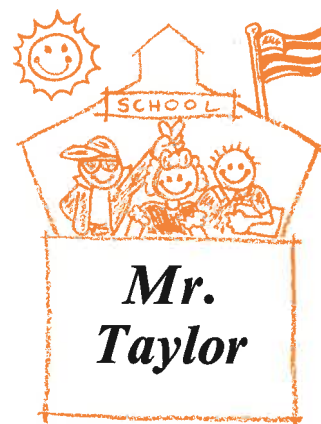

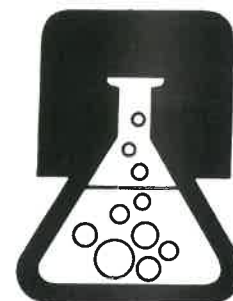

Veteran's Day
Assembly

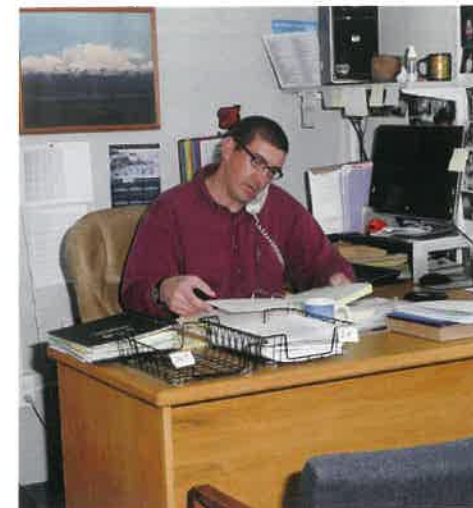

What does seeing pet spiders (whether they're real or not), learning about atoms, cells, and a little oxygen mixed with H₂O remind you of? A teacher who is a WWII Navy Veteran, attended 10+ years of college, graduating from both University of Washington and Eastern University of Tennessee. It is a joy to his heart to see students taking part and enjoying a math or science project--such as the "thinking tube". These are just a few fond memories (of many!) that this inspiring scientist has locked away in his memory box. He has dedicated long drives from the Tri-Cities (Richland, WA) to be with us every day--for 11 years now.

You guessed right--Dr. Richard Taylor.

Thank you for all that you do for us--considering the frustrations we put you through. It's wonderful to know that there is no other place you'd rather to be. We proudly dedicate the 2010 yearbook to you!

Foreign Exchange Students

Po-An Hsiao, known to us as Edward, is our foreign exchange student this year from Hsinchu City, Taiwan. He has two older brothers, ages 19 and 18 years. He is enjoying the company of Jeff and Louetta Whitaker's family. He likes American houses because they are big and beautiful. He enjoys the school system here in Lind, especially the math classes.

Another student that lives with the Whitaker's is Maria Baatz Olsen. She's from Ulstrup, Denmark. Her parents are Tina and Niels Olsen. Her brothers are Morten, 23, and Martin, 20. What she likes about coming to the U.S.A is the opportunity to meet a lot of new people and learn a new culture. She finds that Lind is a peaceful town. She finds it easy to talk to people here at Lind, but it took her a while to get use to people and the concerns they had about her. Before leaving the U.S., she would like to visit bigger cities.
